

SAP BTP - BUSINESS TECHNOLOGY PLATFORM WORKSHOP

Agenda

- ◆ Introduction to SAP Business Technology Platform (BTP)
- ◆ Keeping the Core Clean with SAP BTP
- ◆ Extensibility Options on SAP BTP
- ◆ Application Development and Automation
- ◆ Data and Analytics (SAC)
- ◆ Integration Suite (CPI)
- ◆ Intelligent Technologies (AI, ML, IoT)
- ◆ Low Code/No Code Solutions with SAP Build Apps
- ◆ Industry Use Cases and Success Stories

Smartsoft International brings its experts to provide an overview of the SAP Business Technology Platform (BTP), showcasing how it helps keep the core clean while offering various extensibility options. The session will include live demonstrations of industry use cases focusing on application development, integration, and automation.

Key Topics:

- ❖ Side by Side Extensibility overview, and Application Development
- ❖ Intelligent Technologies including Automation
- ❖ Data Analytics using SAP Analytics Cloud
- ❖ Demo on Industry use case including SAP S/4HANA Integration
