

SMART APPROVER APP

Transform Your Approval Processes

About Us

Founded in 1997 in Atlanta, GA, Smartsoft has consistently grown by offering diverse services to SAP clients across industries. Over two decades, we've expanded our capabilities and earned numerous accolades, including Gold Partnership with SAP.

Product Overview

The Smart Approver App, developed using SAP Business Technology Platform (BTP), is a sophisticated solution designed to optimize approval processes through its robust integration with SAP S/4HANA (On-Premise, Public/Private Cloud).

Benefits

- ✓ Enhanced Productivity
- ✓ Efficiency Boost
- ✓ Improved Accuracy

Key Features

Dual Roles

Facilitates smooth interaction between Consumers and Approvers.

Custom Table Access

Consumers can view and change data directly from SAP S/4HANA.

Real-Time Updates

Approved changes are instantly updated in SAP S/4HANA system.

Multi-Level Approvals

Configure multiple Consumers and Approvers, with support for complex approval hierarchies.

Automated Notifications

Instant email alerts for Approvers when action is required and status updates for Consumers.

Transform your approval process with the Smart Approver App
— where efficiency meets simplicity.
