

SMART Business PARTNER MASTER BOT

ABOUT US

Founded in 1997 in Atlanta, GA, Smartsoft has grown by offering diverse services to SAP clients across industries. With over two decades of expertise, we've earned accolades, including Gold Partnership with SAP. We specialize in SAP S/4HANA, SAP BTP, and automation, helping businesses drive efficiency and digital transformation.

PRODUCT OVERVIEW

The Smart Business Partner Master Bot, powered by SAP Build Process Automation, automates bulk vendor and customer creation in SAP BTP (On-Premises, Public/Private Cloud) from Excel. It streamlines repetitive tasks, reduces operational time, and ensures data accuracy by updating status directly in the Excel template, enabling businesses to focus on strategic priorities.

TIME SAVING

Time Savings

Error Reduction

Improved Efficiency

Scalability

**Optimize your business partner management
with automated, error-free data entry.**

KEY FEATURES

➤ Comprehensive Business Partner Creation

Automates the creation of business partners, including various views such as Vendors and Customers. This comprehensive solution ensures that all necessary data is entered accurately and swiftly.

➤ Scalability & Flexibility

The bot handles multiple batches of business partners, scaling across desktop agents to meet growing business needs. It ensures consistent performance for both small and large data volumes.

➤ Efficient Integration with SAP API Hub

The bot integrates with SAP API Hub, ensuring robust and efficient data management. This connectivity provides a smooth transfer of information, allowing for real-time updates and collaboration.

➤ S/4HANA Integration

Fully compatible with SAP S/4HANA (On-Premises, Public/Private Cloud edition) support the bot facilitates smooth integration, enabling businesses to continue operating with their existing infrastructure without disruption.

USE CASE

Scenario

A large manufacturing company regularly deals with the bulk creation of business partners in SAP S/4HANA. The manual data entry process is time-consuming, prone to human errors, and resource-intensive. With frequent business partner updates, the company needs a scalable, error-free solution to manage thousands of business partner records efficiently.

Solution

The Smart Business Partner Master Bot automates the entire process of creating business partners in SAP BTP. Using SAP Build Process Automation, the bot uploads business partner data from Excel files directly into the system, eliminating manual data entry. It integrates with the SAP API Hub to ensure smooth and secure data transfer, and it is compatible with SAP S/4HANA on-premise and cloud environments.
